

HOW TO DRAW A KEY

The grid illustrates the five steps of drawing a key:

- Step 1: Two parallel horizontal lines representing the shaft of the key.
- Step 2: A jagged line is added to the bottom of the shaft to represent the teeth.
- Step 3: A circular shape is added to the left end of the shaft to represent the head of the key.
- Step 4: A complete white outline of the key is shown.
- Step 5: The final drawing is a solid brown key.
