

Magic Milk Experiment

Make milk come alive in a sea of swirling colors with this fun magic milk experiment.

Things You Need For The Magic Milk Experiment

- ½ to 1 cup milk
- Red, blue, green and yellow liquid food coloring,
- Dishwashing liquid, and
- Cotton swabs
- A plate

Steps To Create A Magic Show On Milk

- **Step 1:** Pour the milk into the plate, ensure that the base of the plate is covered with milk.
- **Step 2:** Add one drop each of red, blue, green and yellow food coloring on the milk.
- **Step 3:** Carefully, add just one drop of dishwashing liquid to the milk. Now, the magic show begins! As soon as the dishwashing liquid hits the surface of the milk, the colors start mixing and forming swirly patterns all over the milk.
